

---

Dear Parents,

It's hard to believe we can actually say this but....

We're just months away from moving into our new home at 34 Winter Street!

Work continues simultaneously in many different areas--both inside and outside--to make our new space feel like home.

### **Outdoor Classroom Space**

Recently, early childhood teachers met to brainstorm how to best put to use the outdoor space at 34 Winter Street. There are myriad ways to use the natural surroundings as an extension of the classrooms. While the details will be worked out over the coming weeks and months, the faculty has agreed that the space should support student exploration and discovery and foster their ingenuity and imagination, all while making use of natural and repurposed materials.

### **Indoor Cabinetry**

What makes a classroom feel organized and ordered? Cabinets, of course! The architects are presently developing cabinet space for each classroom. This is a crucial piece of the renovation portion of the 34 Winter Street move as it will allow our teachers the ability to be organized as soon as they begin to move in to their new classrooms.

Stay tuned for more updates as progress continues!

Warmly,  
Deanne
