

---

Dear Parents,

Spring is officially here! The days are getting (slightly!) warmer and the sunlight is lingering longer into the evening.

We'll be able to utilize every bit of that sunlight once school is out and summer is fully upon us. That's the time when we'll be moving into "summer slammer" mode!

That term is often used by schools and other institutions who undertake new building or renovation projects during the summer months. It describes the high intensity, well organized practice by contractors, architects, designers, and the school to accomplish the work at hand between the end of one school year and the start of the next.

We are working with a construction team that is comfortable with the work load and time frame and is very adept at managing multiple projects and work crews to meet our milestones and deadlines. We will be ready to open the doors at 34 Winter St. in September.

I look forward to keeping you updated throughout the summer and sharing pictures of the progress.

Warmly,

Deanne
