

---

Dear Parents,

May has snuck up on us and just like that, we're preparing for the end of another school year. It's an incredibly busy time of year, punctuated by events such as Spring Visiting Day, the Middle School trip to Washington, DC, and, of course the commencement of our second graduating class!

Our eighth graders aren't the only ones moving on this year. The entire Lesley Ellis community is graduating, as preparations continue for the move to our new home on 34 Winter Street.

### **Signage**

Our communications director, Dave Casanave, members of the marketing committee, and I have been scouting locations for outside signage around our new home. In a few weeks we will begin work with a sign company and over the summer our construction crew will begin the installation.

### **Traffic**

I am working with the Town of Arlington's Transit Advisory Committee on a traffic flow plan at 34 Winter Street. Our goal is to create the smoothest configuration possible for drop off and pick up. Although there will be a new system and routine in place, know that you are always welcome inside the School.

These are exciting times at Lesley Ellis and we're glad you're part of this historic period in our school's history. Stay tuned for more updates as progress continues!

Warmly,  
Deanne
