

---

Dear Parents,

Summer is officially here! That means camps for kids, daylight until 9 p.m., and moving boxes. For us, anyway!

We are excitedly working on many different projects concurrently, all with the same goal—to have our new home at 34 Winter Street ready for the return of our students in September.

### **Packing**

Everything is packed! Thanks to our hard working faculty and staff as well as a volunteer crew of parents and students, the classrooms and hallways have been boxed up and are ready for the movers.

### **Who is Where?!**

As part of the move, the administrative offices have been temporarily relocated to the second floor of the House. Later this summer, those offices will be moved into our new home at 34 Winter St.

The Lesley Ellis Summer Program will be at the School for duration of this week and next week and then it moves to Brackett School for the duration of the summer.

### **Fast Facts**

- ✓ Demolition at 34 Winter St. begins on Thursday this week.
- ✓ Paint colors for hallways and classrooms are being finalized this week.
- ✓ Perhaps most importantly, in my most recent conversation with our contractor, Ken, I asked him if he was feeling confident about the time frame and the work that has to be done in order to have School ready for September. “Super confident,” he reassured me. “We can have 50-100 people working in the building if need be. We’ll work 6 days a week and on Sunday if needed.”

Stay tuned for more updates!

Warmly,

Deanne
